IDEAS Y PLANIFICACIÓN.

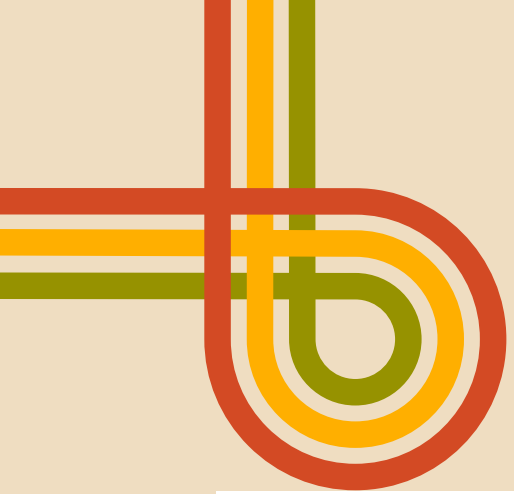

Concepto “La Isla Bonita”-Madonna

Según Madonna, es un tributo a la cultura latina. Para este proyecto, buscamos crear un video dinámico, pero acogedor que se adecúe a la canción. El diseño principal de este es natural y con un toque rústico en el cual se refleje el sentimiento de tranquilidad, naturaleza y fiesta.

Utilizaremos texturas tejidas para lograr una sensación natural y experimentaremos con efectos como un brillo suave o fugas de luz para darle una sensación de luz solar, y ondas movimiento de las olas y el viento.
